

Cool Tips and Tricks!

The screenshot shows the Tableau interface with several callout boxes providing tips and tricks:

- Refresh will show changes to In Review right away while revert removes all filters** (points to the Refresh button in the toolbar)
- Use View to save your current filters on this page. Make it public to share!** (points to the View: Original button in the toolbar)
- If you subscribe to the workbook just before when you think you're going to use this it will run faster.** (points to the Subscribe button in the toolbar)
- Use this to download the data on the screen.** (points to the Download button in the toolbar)
- Write comments about certain views for others to see what you're thinking.** (points to the Comments button in the toolbar)
- Use this to remove the blue header** (points to the Full Screen button in the toolbar)

The main content area displays a table with the following data:

Location	Description	Name	Series	Check Class	GE Trait	Dorm	Conv	Harv
Blue Gulch, ID	2014 Blue Gulch Salt SYN1	R414W223	2014		Round Up	4		
		R414W251S	2014		Round Up	4		
		R414W252S	2014		Round Up	4		
		R414W253S	2014		Round Up	4		
		R414W261S	2014		Round Up	4		

Below the table, there are filters for "GE Trait" (set to "(All)") and "Series".
